

Herbal formulation against ectoparasite of animals

Parshuram Bio Agro-tech Pvt. Ltd
Recognized start-up
Government of India No.: DIPP-102
Government of Punjab No. : ST/FC/20013

Pragmatic Business Approach

Aditya Tyagi(Director)

Problem statement

- Ticks have a major economic impact through their vector potential and direct losses due to their detrimental effect and the efforts taken for preventive measures directed against them.
- *Rhipicephalus (Boophilus) microplus* is a major problem for the sustainable dairy industry transmitting various disease-causing pathogens and causes a cumulative loss of 787.63 million USD due to ticks and tick-borne diseases annually in India.
- The diseases transmitted by ticks are a major constraint to animal productivity while causing considerable level of morbidity and mortality in animals.
- Ticks have developed immunity against chemical acaricides beside this organophosphates, synthetic pyrethroids, formamidines, and macrocyclic lactones often result in the selection of acaricide-resistant ticks, environmental pollution, and possible contamination by residues in the products derived from treated animals.

You know what?

WE HAVE A SOLUTION

"herbal formulation against ectoparasite of animals."

- Our Company developed a herbal formulation against ectoparasite of animal products by using an active ingredient from mustard which worked magnificently on the current problem.
- The herbal formulation was developed & supplied in PPP mode & tested on animals by MAFSU Mumbai and in vitro study by GADVASU Ludhiana through ICAR-CIPHET.
- Our product was also very effective against the corona virus & tested by CCMB Hyderabad through PAU Ludhiana in PPP mode.

Unique value Proposition:

Ticks & Flies have become resistant to market-available acaricides, our herbal solutions contains **NEW MOLECULES**, which is found to be much more effective towards them.

Target customers

- Pet Owners
- Dairies
- Livestock Farmers
- Veterinarians and Veterinary Clinics
- Pet Care Retailers
- Animal Welfare Organizations & NGOs
- Corporates & Institutions.

Competitive Analysis

(Including Major companies but not limited to..)
