Scaler 8+ years of experience turning ideas into large-scale programs

Marketer Led ISR, a brand known for strong customer loyalty and retention

ISR: Indian School of Robotics

The Problems

Why integration of EduToys
into **mainstream** faces challenges?

1

Parents often struggle to understand child's evolving needs & are unaware of the diverse range of toys available that cater to these needs.

2

As child's age, needs, and interests evolve, parents are forced into repeated purchases of new toys.

3

Toys become unused as children outgrow them, creating wastage

Solution

- **Saves Time**

MyDeck selects the perfect toy for the child's current stage and what comes next, tailored to needs and growth milestones.

- **Saves Space**

MyDeck refreshes by providing upgrades to toys that grow with your child's evolving needs and interests

- **Saves Money**

MyDeck accept unused toys to generates value

- Flat-rate Delivery Charges (To Pay)

Right on Time

Government Policy Alignment

The recent introduction of NCrF enables K-12 students to earn credit for skills, and NEP emphasizes on hands-on learning. MyDeck aligns seamlessly with these policies, bridging access gaps and equipping learners with future-ready skills, making it a timely and impactful solution.

NCrF: National Credit Framework
NEP: National Education Policy

Growing Desire for Upskilling

Growing desire among experts to upskill in view of global trends for new opportunities, coupled with the significant increase in the affordability of mobile technology and improved logistics, gives Qrios the opportunity to access resources from anywhere.
