

SMART ENERGY

—— *Microgrid Solution for E-Mobility* ——

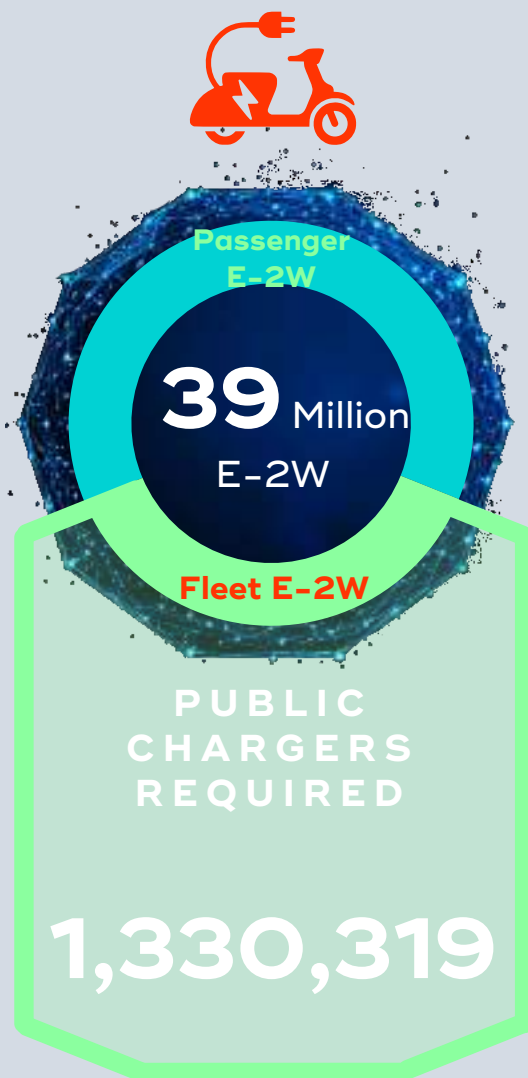

Powering the Future with Smart Energy

At EzUrjaa Group, we are driven by our mission to ensure Energy Accessibility, Reliability, and Stability. This vision led to the creation of “EzEnergy”, a comprehensive ecosystem powered by proprietary technology.

EzEnergy specializes in developing state-of-the-art charging hubs designed for fleet operators and EV users, utilizing our locally manufactured EzAmps EV Chargers. These hubs can support simultaneous charging for up to 250 EVs, ensuring scalability and efficiency.

By integrating cutting-edge hardware and software capabilities, EzEnergy goes beyond charging infrastructure, offering tailored solutions to electrify India’s E-Mobility Ecosystem, paving the way for a greener, more sustainable future.

Daily Consumption Data

The **E-Mobility** Corridor

Developing **10** Sites On Kolkata-Ansols Highway

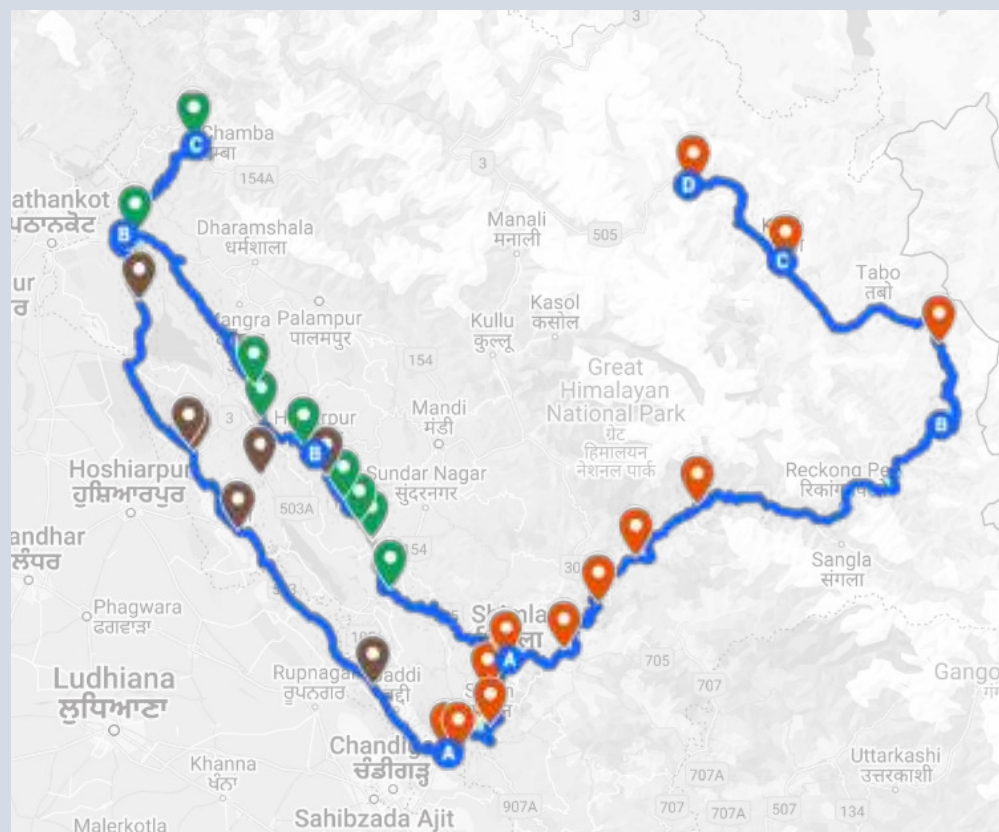

- ⚡ Kalachara
- ⚡ Galsi
- ⚡ Khaserbheri
- ⚡ Sadarghat
- ⚡ Bastara
- ⚡ Bhiringee

Over Next 2 Years Each Site Will Have **200 kW** Cumulative Capacity

The E-Mobility Corridor

Developing **30** Sites On 3 Himachal Pradesh State Highways

- ⚡ **E-Corridor 1**
Bilaspur – Chamba
- ⚡ **E-Corridor 2**
Parwanoo – Losar
- ⚡ **E-Corridor 3**
Pawanoo – Nurpur

40-year Lease On BOO Model For EV Infra Ecosystem with rest areas,
Each Site Will Have A Minimum **240 kW** Capacity

The E-Mobility Projects

#	Project	# of EV Chargers	Auxiliary Services	Current Status
1	EV Super Hub – Thakurpukur	200+	Yes, Full Ecosystem	- Site Handover in Nov 2024 - Offtake Agreement Finalized - Operational in April 2025
2	EV Hub Plus (Along with Spokes)	150 – 200	Partial, Added Services	- Site Identified - Offtake Arrangement in Place - Site Handover by Mar – Apr 2025
3	E-Corridor – WB (Kolkata – Asansol – Kolkata)	20 – 30	Basic Services	- Sites Acquired - Project Start by Jan 2025
4	3 E-Corridor – HP (Bilaspur – Hamirpur – Kangra – Losar – Nurpur)	90 – 100	Partial, Added Services	- Sites Acquired - Project Start by Feb – Mar 2025
5	4 EV Hubs (East Coast)	400 – 600	Partial, Added Services	- Proposed
6	3 EV Hub Plus (NCR)	350 – 500	Partial, Added Services	- Proposed
7	2 EV Hub Plus (HYD)	300 – 400	Partial, Added Services	- Proposed
