

# NEXTBULL

THE SUPER APP FOR FINANCIAL MARKETS

# THE PROBLEM

**90% of traders LOSE money – Not because they lack skill, but because the system is broken**

**In today's interconnected world, there's no single platform that seamlessly connects global markets, real-time data, and deep insights for traders**

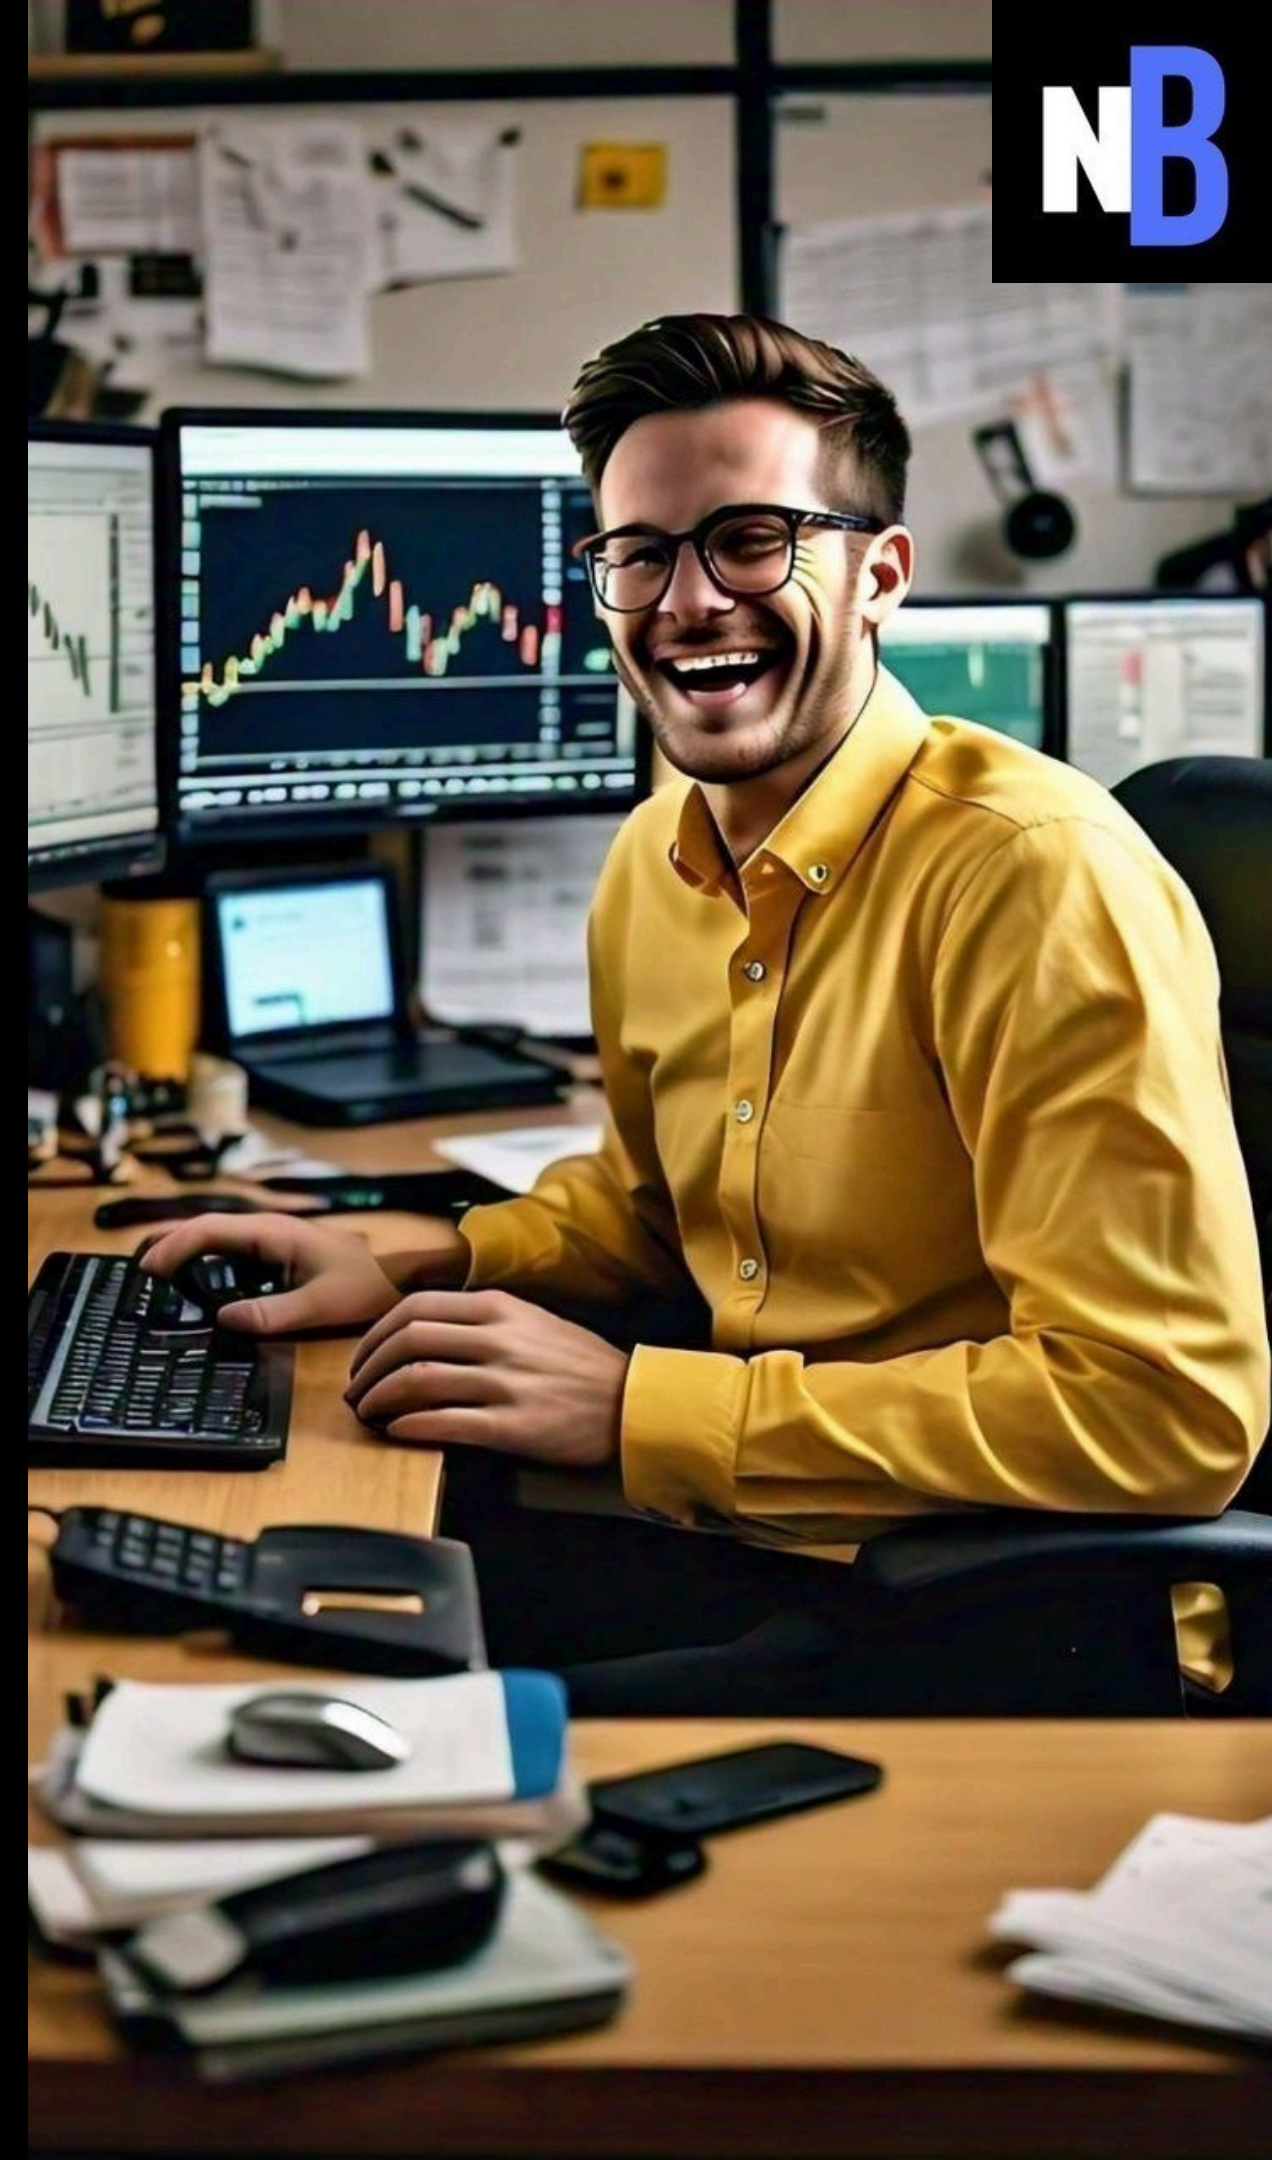

# THE SOLUTION

## NEXTBULL– The Ultimate Trading Ecosystem

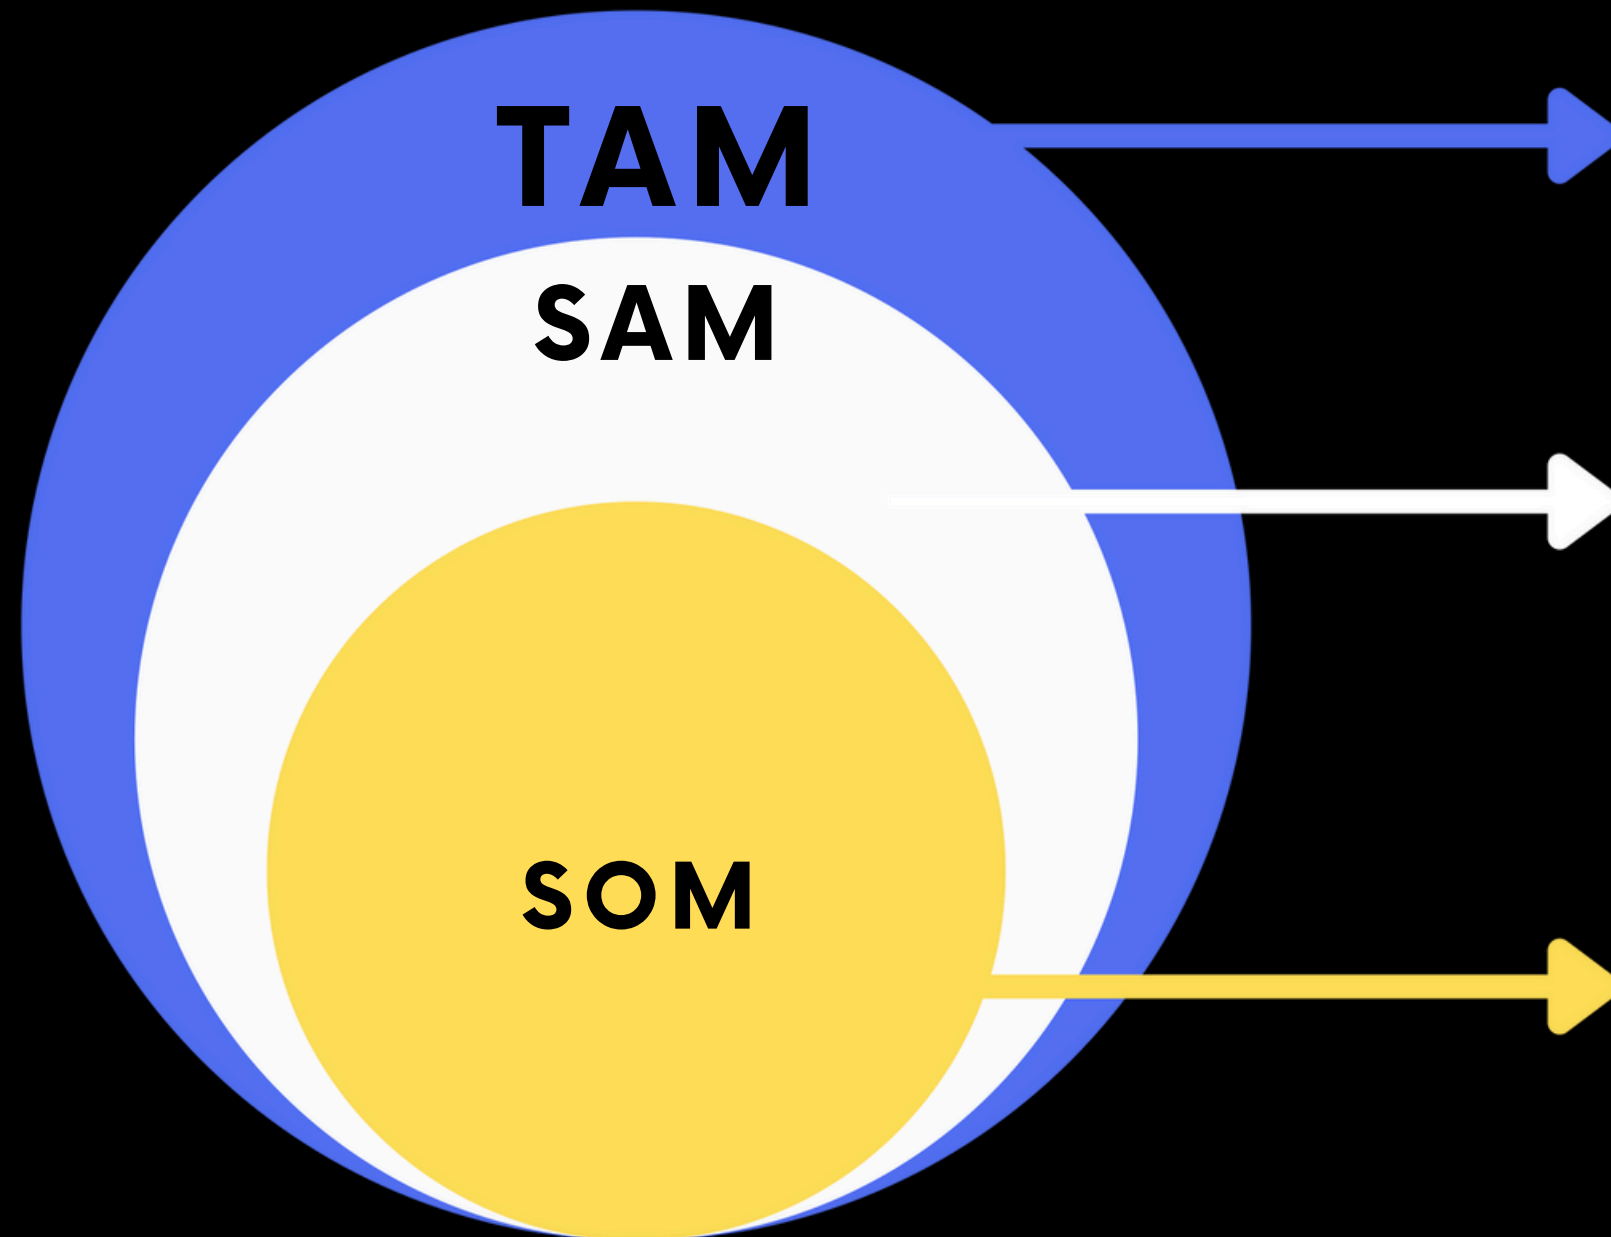

A revolutionary platform that eliminates trader pain points by offering seamless execution, unlimited market access, and proper capital support.

**NextBull is the first AI-driven trading super app that gives traders capital, execution speed, and liquidity—all in one place.**

**NextBull is fixing this by offering the first AI-powered, capital-backed trading ecosystem—built for the modern trader**

# MARKET SIZE

**Total Addressable Market:** The global trading market, including stocks, forex, crypto, and commodities, has a daily trading volume of over \$7 trillion.

**Serviceable Available Market:** Active traders generate \$500 billion in yearly trading volume, and they're desperate for a better, faster, all-in-one platform.

**Serviceable Obtainable Market:** Capturing just 1% of this market means NextBull can handle \$5 billion+ in trades annually—backed by traders who need capital, speed, and execution.

*Every single day, \$7 TRILLION is traded worldwide. But retail traders are stuck using outdated, expensive, and fragmented platforms*
