• Introducing the leadership team of Enayam Venture and Research Private Ltd: (CIN)U70200UT2025PTC018508

- We, Gursewak Singh and Rishi Negi, are more than just business partners; we are a meticulously balanced team with a shared vision for delivering premium makhana to the market. Our combined strengths create a formidable foundation for the success of this factory.
- 10920775 I, Gursewak, bring a deep understanding of operational efficiency and supply chain management. My background ensures that our production processes will be streamlined, cost-effective, and capable of scaling to meet demand without compromising quality. I'm focused on the "how" – how we get the best raw materials, how we process them efficiently, and how we deliver a consistent, high-quality product.
- 10920776 Rishi, on the other hand, is our expert in market penetration and brand development. His insights into consumer preferences, sales strategies, and building strong distribution networks will be crucial in positioning our makhana brand for rapid growth and capturing significant market share. He understands the "who" and the "what" – who are our customers, what do they want, and how do we reach them effectively.
- Together, we're a complete package. Gursewak ensures we can produce superior makhana sustainably, while Rishi ensures it reaches the right consumers with compelling value. Our synergy allows us to focus on both excellence in production and aggressive market capture simultaneously. We are deeply committed, possess complementary skill sets, and are ready to transform the makhana market.

- **Project Title**

Investing in Health & Heritage: Makhana Processing Unit in Darbhanga, Bihar

A Profitable Opportunity with Enayam ventures & agro

- **Introduction to Enayam Agro**

Who We Are: "Enayam Agro is an agricultural enterprise, in Dehradun, Uttarakhand, dedicated to innovation within the agricultural value chain.

- Mission: Bridge rural potential with global markets through innovation.

- **The Problem - The Traditional Bottleneck & Global Opportunity)**
- **Inefficient & Unhygienic Processing:** Traditional methods lead to inconsistent quality, high breakage, and fail to meet international food safety standards.
- **Lack of Standardization:** Varied product quality impacts consumer trust, especially in discerning international markets.
- **Limited Scale & Supply Gap:** Current methods cannot meet the burgeoning global demand for healthy snacks, missing significant export opportunities.
- **High Post-Harvest Losses:** Substantial waste due to rudimentary handling, impacting profitability and potential export volumes.

• **Project Overview The Solution ENAYAM's Modern Approach**

- **10,000 Sq Ft Integrated Facility**: Strategically located for efficient raw material sourcing and logistics for domestic and international shipments.
- **8-20 Quintal Per Day Processing Capacity**: Designed for high volume, consistent output, and scalability to meet national and global demand.
- **Our Core Pillars:**
- **Advanced Automation**: Implementing cutting-edge machinery for roasting, sorting, grading, and packaging, ensuring superior quality, hygiene, and export-readiness.
- **Global Quality & Certifications**: Adherence to stringent international food safety standards (e.g., FSSAI, HACCP, potential for Organic, BRC/IFS for export).
- **Value Addition & Diversification**: Capability to produce raw, roasted, and a range of innovative flavored makhana products for diverse palates, catering to both domestic and international preferences

• **Market Opportunity**

- **Why Makhana?**
 - **The India makhana market, valued at INR 100.3 billion in 2023, is projected to reach INR 254.3 billion by 2032, growing at a CAGR of 10.89%.**
 - **The global makhana market is also experiencing growth, estimating a global value of \$43.56 million in 2023 and expecting it to reach \$100 million by 2033. This growth is driven by factors like the rising awareness of healthy snacking, the expansion of food service outlets, and the increasing influence of food vlogging.**
 - **Bihar produces 80% of India's makhana; Darbhanga & Madhubani is a key hub.**
-
- **- Demand Drivers:**
 - **- Superfood Recognition**
 - **- Rising vegan/gluten-free trends.**
 - **- Export potential to UAE, USA, and Europe.**

- **Competitive Edge**
 - **Raw Material Access: Direct partnerships with 100+ local farmers.**
 - **Cost Efficiency: Low labor costs (₹8,000-10000/month avg. wage).**
 - **Sustainability: Solar-powered units, zero-waste processing.**
- 

• Investment Breakdown (₹ 2 Crores)

- Strategic Allocation of Funds:
- Building Construction: ₹80 Lakhs - For the 10,000 sq ft modern factory facility, designed to meet international standards.
- Working Capital: ₹50 Lakhs - To cover initial operational expenses, raw material procurement (including export-grade inventory), and inventory management for seamless domestic and international supply.
- Land Acquisition: ₹30 Lakhs - Securing the prime location with excellent connectivity for logistics Bihar Darbhanga donar industrial area.
- Machinery & Equipment: ₹25 Lakhs - Investment in advanced processing, sorting, grading, and packaging machinery for 8-20 QPD capacity, ensuring export-ready quality.
- Contingency: ₹15 Lakhs - Essential buffer for unforeseen expenses, including potential additional certification costs for export, and ensuring project continuity.
- This investment directly fuels: Rapid factory setup, efficient and compliant production, robust domestic and international supply chains, and aggressive market penetration into high-growth export markets.

• Go-to-Market Strategy

- Phase 1 (Initial 12-18 months post-commencement): Establishing Core Markets
- Domestic User Acquisition & Retention (Key Lever): Our comprehensive user acquisition strategy will focus on data-driven digital marketing campaigns (including targeted social media advertising, influencer collaborations with health and food vloggers, and search engine marketing) to build immediate brand awareness and drive direct consumer traffic. We will leverage our D2C e-commerce platform and B2C integration on major marketplaces like Amazon and Flipkart for rapid consumer access. Our initial marketing budget of Rs. 1.5 lakh/quarter will be strategically deployed for maximum ROI.
- International User Acquisition (Pilot): For initial pilot export programs to 1-2 key markets (e.g., UAE, UK), our acquisition strategy includes participation in targeted international food expos and establishing initial partnerships with specialized ethnic food distributors to build brand awareness and secure early large-volume sales. We are committed to securing FSSAI, ISO, and HACCP certifications within this phase, with active pursuit of Organic, BRC/IFS for export readiness.
- Phase 2 (18-36 months): National & International Scale-Up
- Scaled User Acquisition & Market Penetration (Key Lever for Competing Effectively): We will significantly expand our digital footprint and invest in nationwide advertising campaigns. We will strategically enter B2B markets (retailers, Distributor, Wholesalers, hotel chains) and explore innovative channels like "café pop-ups" (5 planned in Year 2) to increase brand touchpoints and enhance user adoption. For international markets, our acquisition strategy will involve tailoring our product offerings and marketing messages to specific regional preferences, securing advanced certifications like BRC/IFS to ensure our brand resonates deeply with diverse international consumers and builds trust. We anticipate reaching 8 quintals/day capacity with semi-automation in Year 2, then maximizing to 20 quintals/day in Year 3.
- Competitive & Value-Based Pricing (Key Lever for Adoption): Positioned for value, offering premium quality at accessible price points domestically.
- Premium Pricing for Export Markets: Reflecting quality, certifications, and shipping costs.

- 
- **Risk Mitigation**
 - - **Risks: Price volatility, operational delays.**
 - **Solutions:**
 - - **Fixed-price contracts with farmers.**
 - - **Insurance coverage for machinery.**
 - - **Diversified product range (flavored makhana, makhana flour).**

- **Social Impact**
 - **Job Creation**
 - **Increased Income for Farmers**
 - **Skill Development**
 - **Rural Development**
 - **Infrastructure Improvement**
 - **Community Development**
- 

• 5-Year Of Financial projection

- Year 1: Foundation & Brand Building

- - - Establish brand identity and D2C eCommerce presence
- - - Consistent processing of 3 Quintal/ Day 1100-1200 per kg Price
- "25 day working" (per month)
- "300 day annually" (which is 25 days/month * 12 months)
- - - B2C Integration: Initiate sales on major e-commerce marketplaces like Amazon, Flipkart. Begin outreach to local and regional wholesale distributors for initial market penetration in North & West India.
- - - Marketing budget Rs. 1.5 lakh/quarter
- - - Obtain FSSAI, ISO, HACCP, potential for Organic, BRC/IFS for export certifications
- - Projected Revenue: Rs.10Cr | Net Profit: Rs.3 Cr | Valuation: Rs.15 Cr

- Year 2: Scale & Distribution

- - - Expand to 8 Quintal/day with semi-automation
- - - Enter B2B market: retailers, hotel chains
- - - 5 Café Pop-ups launched
- - - Investment in machinery: Rs.1.5 Cr
- - Projected Revenue: Rs.25 Cr | Net Profit: Rs.6.5 Cr | Valuation: Rs.35 Cr

- **Year 3: Brand Diversification & Franchise Model**
- - - **Maximized Production: Reaching 20 quintals/day in Year 3**
- - - **Launch new product lines: bars, flavored snacks**
- - - **20 full-service cafés (flagship + franchise)**
- - - **Begin exports to UK, Middle East**
- - - **Investment in R&D: Rs.1 Cr**
- - **Projected Revenue: Rs.65 Cr | Net Profit: Rs.15 Cr | Valuation: Rs. 85 Cr**

- **Year 4: National Expansion & FMCG Play**
- - - **National distribution in 1000+ outlets**
- - - **Raise Series A funding: Rs.50 Cr**
- - - **50 cafés operational**
- - - **Institutional sales: gyms, airlines**
- - **Projected Revenue: Rs 100 Cr | Net Profit: Rs.35 Cr | Valuation: Rs. 150 Cr**

- **Year 5: Mergers & Acquisitions (M&A) Acquire Smaller Players**
- - - **Reach Rs.300+ Cr Valuation**
- - - **Prepare for strategic alliances/Joint venture**
- - - **Projected revenue: Rs.200 Cr | Net profit: Rs.60 Cr**
- - - **Valuation: Rs.300-400 Cr**

● **Exit Strategy**

- **Clear Pathways for Investor Liquidity:**
- **Strategic Acquisition:** Position the company as an attractive target for larger Indian or international food conglomerates, snack manufacturers, or healthy food brands looking to acquire a robust makhana processing capability and an established brand in India and key export markets.
- **Secondary Sale:** Facilitate the sale of investor's equity to another strategic investor or private equity fund at an enhanced valuation driven by increasing domestic market share and expanding international presence.
- **Management Buyback:** Opportunity for the founders to buy back investor shares based on agreed-upon valuation metrics as the company achieves significant milestones and generates strong cash flows.
- **We are committed to delivering substantial returns by building a highly profitable, scalable, and globally recognized business.**

• **Conclusion & Next Steps**

- **We are seeking ₹2 Crore in pre-seed funding for 20-30% equity to establish our operations and achieve key milestones within the next 12 months.**
- **Next 12 Months: Operational Timeline**
- **Month 1: Finalize land acquisition.**
- **Months 2-7: Infrastructure development.**
- **Months 8-11: Installation of machines & equipment.**
- **Month 12: Commencement of operations.**

● **Call to Action**

- **Our Vision: To be India's most trusted and the world's preferred brand for hygienically processed, high-quality makhana products, contributing to a healthier lifestyle globally and empowering local agricultural communities through sustainable practices.**
- **Join Us on Our Journey:**
- **"Invest in ENAYAM AGRO AND VENTURES and become a part of the healthy snacking revolution in India and across Europe, USA, and the Middle East. Your partnership will enable us to scale rapidly, capture significant market share both domestically and internationally, and deliver exceptional returns."**
