

CLEANTECH MART

For Net Zero Future

**By fostering a habit of
responsible consumption**

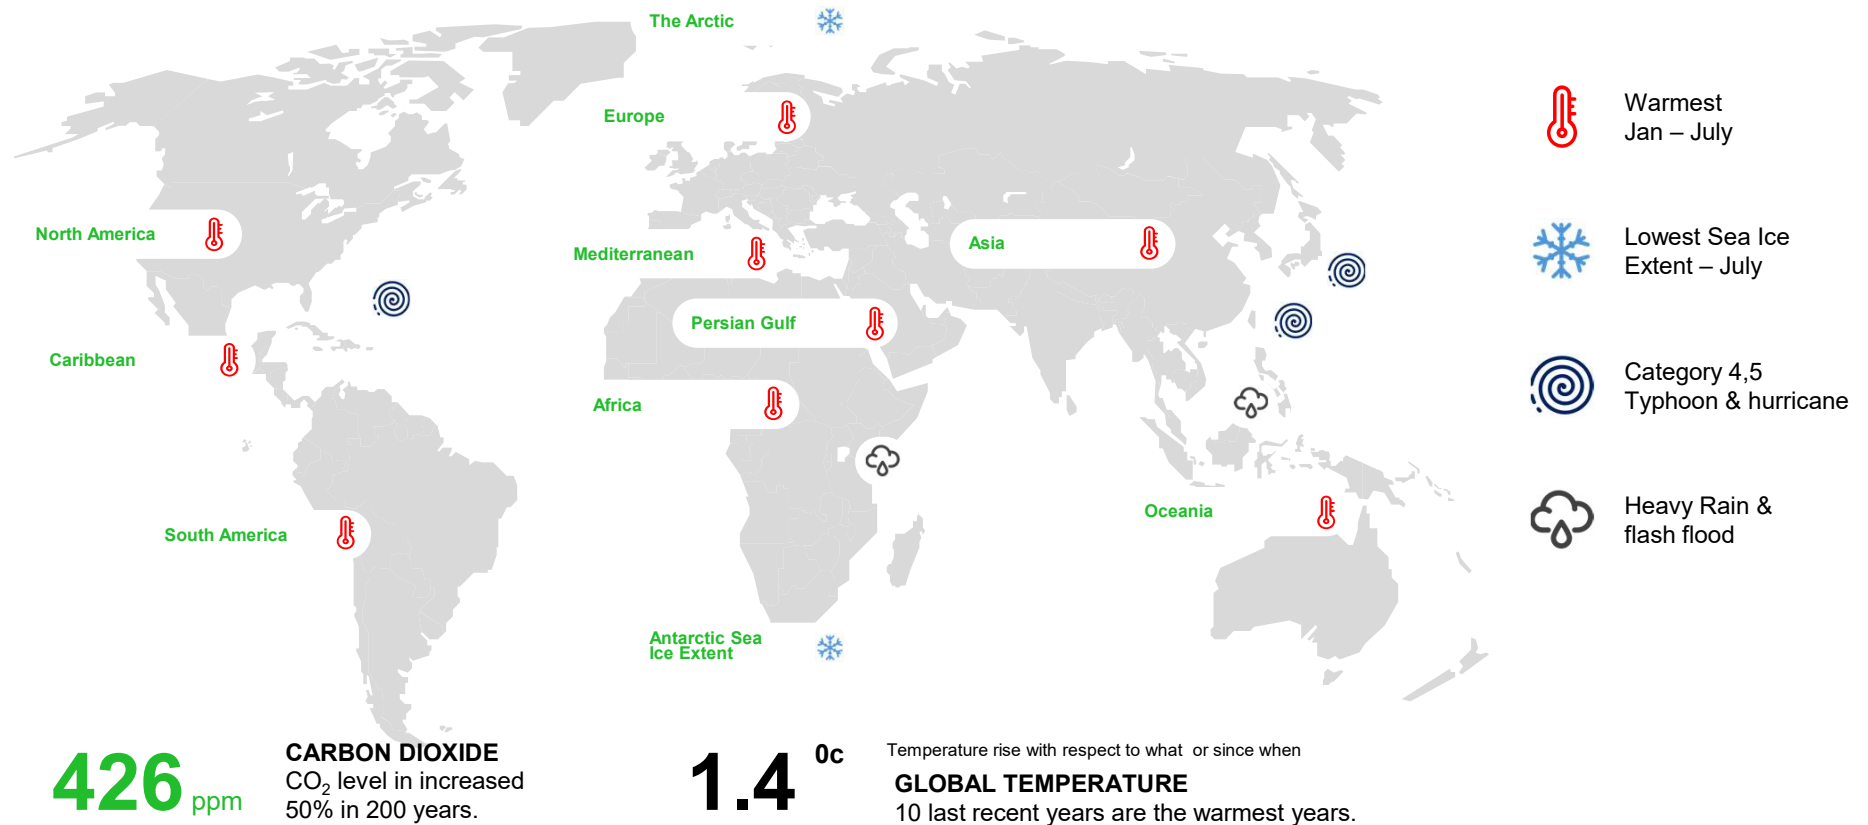

Wildfires tearing through the London suburbs & LA. One-third of Pakistan underwater. Drought-linked famine looming for tens of millions of people in East Africa. Billions of dollars in damage from a “500-year” hurricane that smacked into Florida.

Global warming is the main cause of Climate Crisis

WE ARE FACING SIGNIFICANT CLIMATE ANOMALIES GLOBALLY

Cleantech Mart by IDEALERS B2B PVT LTD

THE WORLD NEEDS CONSUMER INDUSTRIES TO ACT TO REDUCE GLOBAL EMISSION

No single industry solely causes climate change, but consumer companies significantly contribute due to their size and impact.
