

The Problem

₹10,000+ crores lost annually to online frauds in India
Rising cybercrime targeting individuals, not just companies
Lack of affordable, easy-to-use protection for families

The Solution (Coming Soon)

Heartless Security provides AI CyberShield personal cyber protection through:

- ✓ AI CyberShield App – Blocks scam calls, fraud SMS & phishing in real time
- ✓ Cyber Squad (24/7) – Trained experts on standby for instant help
- ✓ Insurance Backup – Financial coverage for fraud-related losses

Early Traction

- Acquired first 10 paying customers organically without marketing & without app launch → proves unmet demand.
- 50+ potential customers on waiting list due to lack of funds for app launch
- Proves market demand exists even before product launch

Investment Ask

- Seeking ₹1.5 cr seed round
- Funds use: App development, marketing, security squad expansion
- Offering equity (10%) depending on valuation
- Target: 10,000 users in 12 months with average ₹499/month plan → ₹6 crore ARR

Business Model

- Subscription Plans: ₹499 – ₹1,999/month for continuous protection.
- Cyber Squad On-Demand: Extra charges for urgent or VIP assistance.
- Insurance Partnerships: Revenue share from fraud-loss coverage policies.

Market Opportunity

- 200M+ smartphone users in India need digital security
- Market size: \$5B+ and growing 15% YoY
- Huge gap in consumer-focused protection

Vision

- Launch India's first affordable AI-powered cybersecurity app for families
- Build India's largest Cyber Squad
- Expand to Asia in 3 years

Protecting India from scams & digital frauds
