# FREUDIA

~Give peace to mind

---

# PURPOSE

To make mental health care affordable, accessible, and stigma-free for everyone, especially underserved communities in India.

- 🌐 Inclusive Reach – Urban, rural & remote access,
- 🎓 Educative – For schools, students & corporates,
- 💡 Human + Tech – Qualified psychologists + smart insights

Fast, affordable, and right at your fingertip's vs Traditional Mental Health Care

\*Affordable therapy from ₹250/session 💰

# PROBLEM

India is facing a mental health crisis — with over 200 million people affected, yet less than 20% receive treatment due to **cost, stigma, poor access, and lack of personalized care.**

1. Students are overwhelmed with academic stress but can't afford therapy.
2. Farmers and rural communities suffer in silence with zero mental health infrastructure.
3. Urban individuals face burnout, but therapy is too expensive or impersonal.

## Current Mental Health Situation in India (2025)

### Students

!< 30% Students face academic stress, anxiety, and identity issues, but mental health support is expensive, stigmatized, and hard to access.

\*300 million student in India

### FARMERS

!< 35% Farmers (rural areas) struggle with stress, isolation, and financial pressure, yet lack affordable and local mental health services due to stigma and unavailability. \*65% of India's population lives in rural areas

### INDIVIDUALS

!< 35% Urban individuals deal with burnout, relationship issues, and emotional fatigue, but therapy is often costly, generic, and impersonal. \*500+ million people in the working-age population.

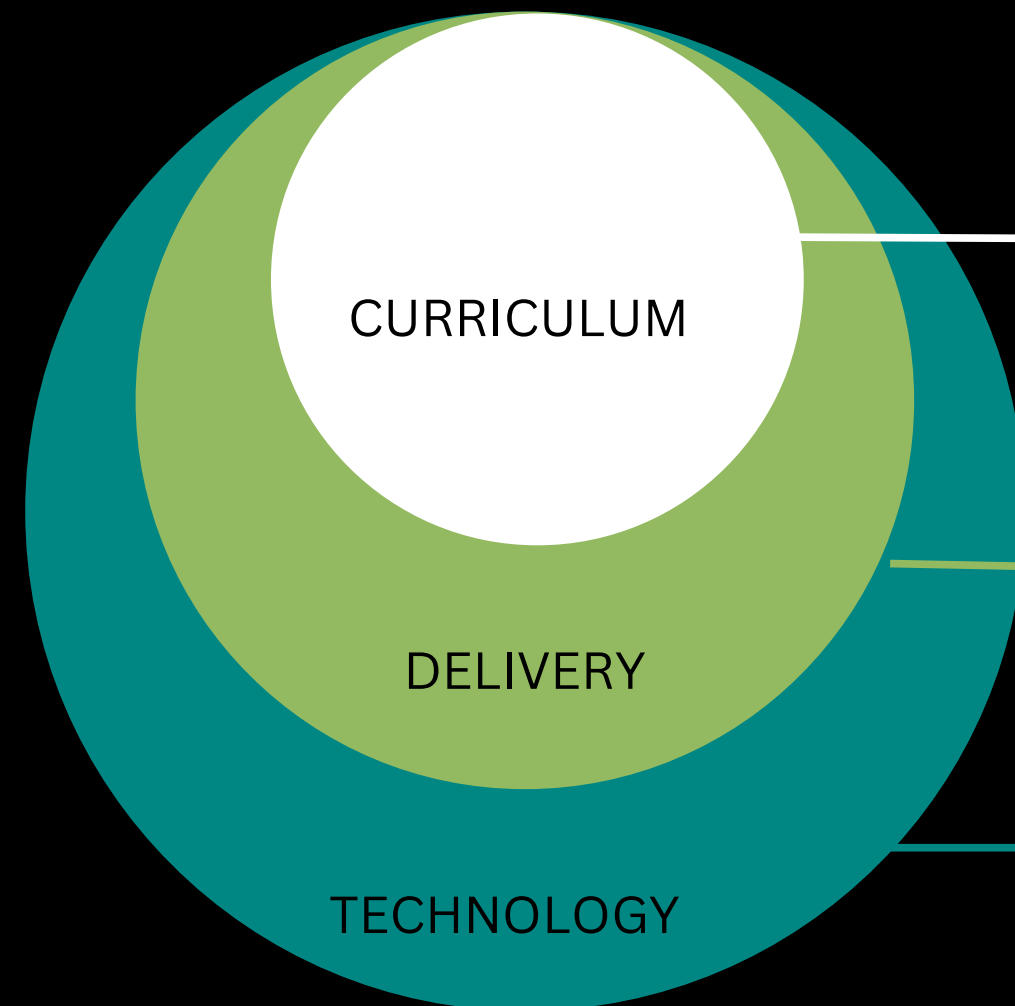

+ India's mental health ecosystem suffers from deep-rooted structural failures that go beyond individual symptoms — they are systemic, long-term, and intergenerational in nature: **1. Severe Shortage of Professionals** **2. Mental Health is Not Prioritized in Policy or Education**

**3. Affordability & Accessibility Crisis** **4. Stigma and Shame Across Generations**

# SOLUTION

FIRST H2H + AI TECHNOLOGY PLATFORM CONNECTING PERSON TO QUALIFIED (RCI REGISTERED) PSYCHOLOGISTS WITH STANDARDIZED THERAPY CURRICULUM

Innovation in every layer of product ecosystem

## DESIGNED BY MENTAL HEALTH THERAPY EXPERTS

- Personalized therapy modules tailored for students, farmers, and working individuals WITH Regional language
- Created by RCI REGISTERD COUNCELLOR experts.

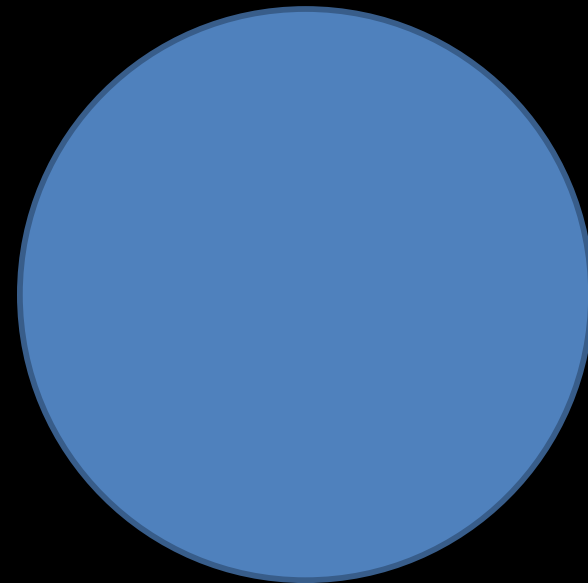

## DELIVERED BY CLINICAL PSYCHOLOGISTS EXPERTS

- Affordable therapy starting at ₹250, with discounts for students and rural users.
- Anonymous Free peer support groups for emotional expression and healing, Smart therapist-matching system based

## EXECUTED BY H2H + AI PERSONALIZED TECHNOLOGY

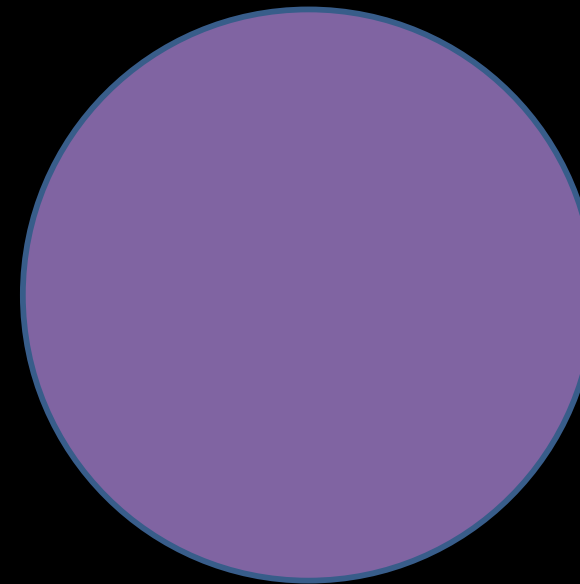

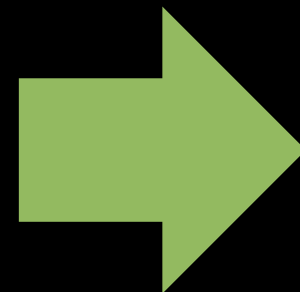

- Mobile/ Desktop/ Tablet-enabled Real Time Video Stream
- Partnerships with colleges, communities, and corporates for large-scale outreach, AI-powered chatbot for emotional support
- Biometric sensing & camera-based stress detection\*

# STANDARD USE CASE

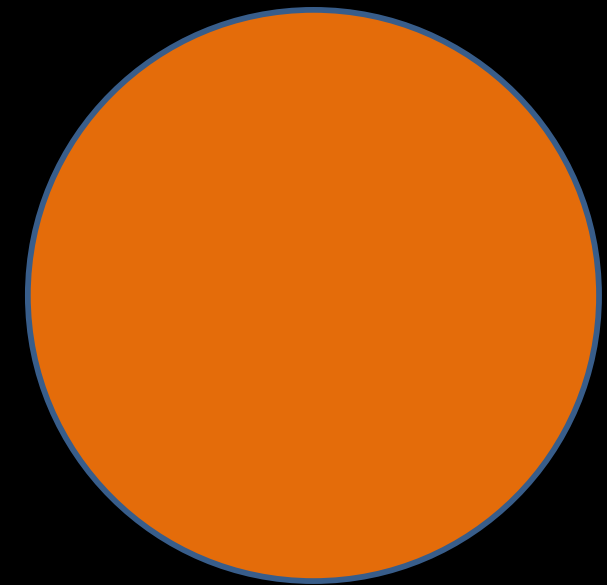

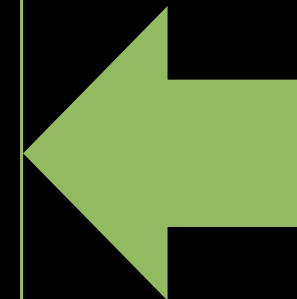

## Demand Side (Individual)

- Searches for Psychologists
  - Books a slot
  - Reviews psychologists at end of session
- Avg. INR: Rs. 500 per session  
(B2C 50% off students & farmers), B2B is customizable

## Freudia Platforms

- Creates Curriculum.
- Qualifies Top 10% psychologists via interview and demo session, and “Trains the Trainer”.
- H2H technology connects Individual to psychologists

## Supply Side (Psychologists)

- Qualifies
  - Take the session
  - Individual assessment during the session
- Avg. INR: Rs 350 per session

# WHY NOW?

STRUCTURAL CULTURAL TRANSFORMATIONS CAUSING UNPRECEDENTED DEMAND SURGE;  
MASSIVELY UNDER-UTILIZED SUPPLY SIDE CAN BE TAPPED WITH TECHNOLOGY

## Demand Surge (Individual)

- Curriculum: Unprecedented Individual(all category) interest
  - practo survey 2025: 80% +of individual want mental health therapy
  - Post-pandemic realization of therapy's effectiveness in person.
- (limited by scale) - 60+ countries
- India: 3+.
- 2m+ downloads of mental health apps

## Under-utilization

- Wide disparity in psychologists Income within India allowing significant pool of STEM qualified, low-income psychologists.
  - India psychologists Income in Non-metro(\$2.2/hr) 50% < than metro.
- density markets: 1. Mumbai, Delhi, Hyderabad, Pune(tier1
- 2. Delhi, Kota, Patna, Chennai, Kolkata, Indore (tier 2)
- 3. Maharashtra (Vidarbha), Bihar, Telangana, Odisha, Punjab,(tier 3) etc.
- Additional India Significant Supply Pool: Under-employed

# CURRICULUM PACKAGING

| Package             | Session     | Price             | Validity              |
|---------------------|-------------|-------------------|-----------------------|

# TECH DETAILS

## Phase 1 Prototype

- Basic Landing Page
- google meet + freudia meet
- Manual Scheduling & Payment

## Phase 2

Early usable version

- Homepage
- Individual and Psychologists portals with scheduling, and payment
- Curriculum Creator
- Feedback for Psychologists and individual
- Portal works on Web Browsers
- One click from portal to start session that integrates conferencing and session
- Timer and Alert Mechanism

## Phase 3

Freudia video conferencing solution

- Build bespoke solution using WebRTC and remove existing off shelf provider to manage costs\*\*
- Freudia mental health platform
- Derive an outcome after taking the session

## Phase 4

Mobile Enabled H2H

Deep learning makes better Psychologists and individual

- AI/ML Models to recommend session
- Automated Reports by the End of session
- Performing Analytics on video, audio, and monitor activity during sessions. Prompt suggestions (during a session) to the Psychologists to increase engagement/efficacy.
