

Schools in India are at crossroads

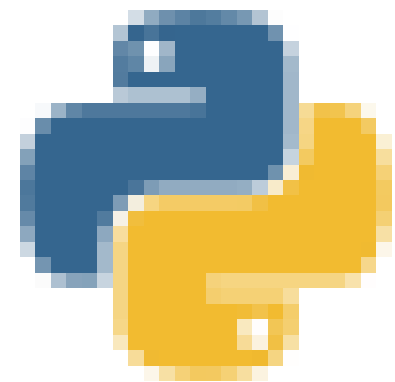

- *Schools with limited resources & domain expertise*
 1. Will need to adapt to new pedagogies, technologies.
 2. Will need more trained teachers, more up skilling.
 3. Face an uphill task of adding new skills / tech to their offerings.

- *Schools need to integrate without depending on external (& often expensive) resources*
 1. Programs like NEP – Skill India – Digital India – Smart City – ATL have their origin or culminate with STEM

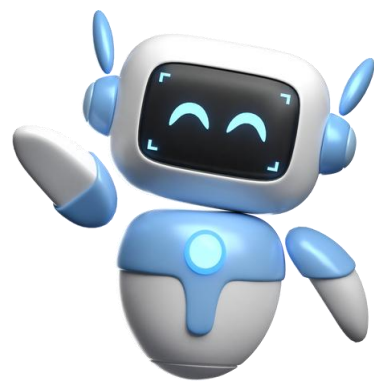

These subjects will be the **new normal**

AI & ML

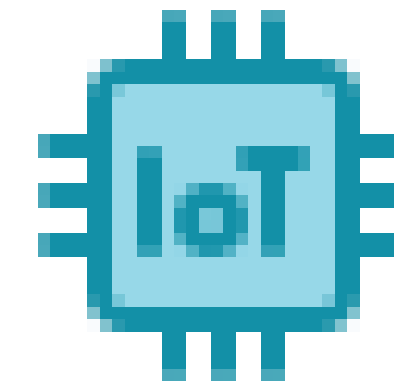

Python

Robotics

Game Dev

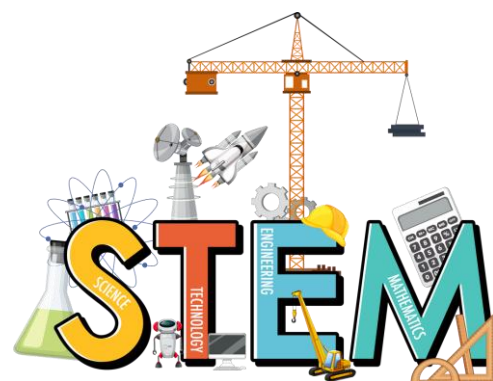

IOT

Arduino

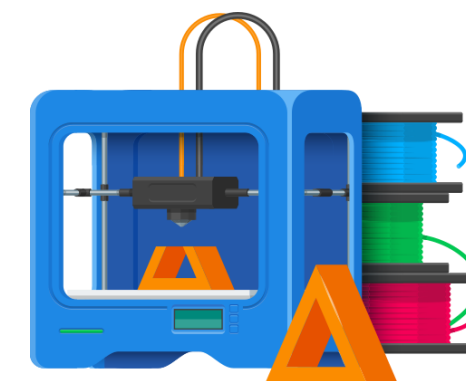

Java

STEM

Electrics

3D Printing

Prompt Engineering

Web App
Development

The **Tally** for Schools in Skill Based Ed / STEM

FLITE Labs is to Schools enabling STEM,
what Tally has been to Indian businesses:

foundational, scalable, and indispensable.

	Tally (Accounting Software)	FLITE Labs (STEM Ed Platform)
Target Users	SMEs and Businesses	Schools and Educators
Main Purpose	Simplify accounting and compliance	Simplify and scale STEM (Skill based education) making it available for all
Value Delivered	Accounts -Financial literacy, business efficiency	Teacher enablement, hands-on STEM learning and new age programs
Ecosystem Impact	Backbone of Indian business accounting	Backbone for STEM learning in Indian schools

One Dream

3. Per-Student SaaS Subscription	₹300 – ₹900 / student / year	High	High-Margin Scaled Recurring Rev
(Continuous LMS Access, post Year 2)			Contiunuity Upgrading and upselling
4. Ancillary Sales	Contributes ~10% – 12% to total top-line	High	School Stickiness
(Advanced Training, Books & Certifications)			

One Team

Vishal Shah

BS - Material Science
Ohio State, USA

Being schoolmates and friends for over 35+ years, We have utilized our complementary skills to build a thriving STEM education company in Mumbai, navigating challenging times like Covid with [frugality, resilience and continuous innovation](#).

[We built and successfully sold JumpBall Sports a Basketball Coaching company to KOOH \(Edusports\) in 2020 Jan](#)

Kaushal Chheda

MBA - International Business
USNH, USA

Current Team

[together since 2017](#)

- Mubaraka Gajabawala
Head of Marketing
BE – Mumbai University
- Chitra Hurmade
Chief Educator, Content Head
BE – Mumbai University
- Gunjal Merchant
Chief Trainer – FLITE
BE – Mumbai University
- Jenil Gudhka – Head of tinkRbox
BE – Mumbai University

The Way Ahead

Founders have 80% of Equity

Largely *bootstrapped – built with capital efficiency* and raised a minimum amount of Angel Capital

Focus Areas

1

Building teams to Scale to 500 Schools by 2027-28

Focus Cities –
Mumbai (Currently on)
MMR – Currently on
Surat – Currently on
Delhi NCR –
Pune
Coimbatore – Chennai

2

Improve the quality of content and user experience on the platform

3

Adding new products on the platform

Added AI last year
Added Drones this year
Future plans –
Space Tech / VR / AR
