History

2006

We started as a propreiter and signed up 5 major clients Shivalik School, Bulls eye, Him Academy, Sainik School Sujampur & Shri Vivekanand Medical Trust Palampur. Initially, we were into software (desktop) and Web design/development.

2008

Cybrain Software Solution became ISO 9001:2008 certified in the year 2009. This year also marked our international beginning with our US tie-up office. We teamed up with MJP Computers HLI Technologies and dove into the international market grabbing multiple international projects.

2014

This year featured the launch of our own product Cyber School Manager (cloud version) which gained a lot of popularity as it simplified school tasks. We also opened our second office in India at Bangalore.

History

2016

Embarked our relationship with TIE Chandigarh as technology partner and till date we are handling their tech work.

2018

This year we increased our horizon by introducing a dedicated Mobile App for Cyber School Manager for both parents & teachers. We also became partners with NAXTRE.

2019

Upgraded our certification and became ISO 9001:2015 certified. We also tied up with our Australian partner Get Found Digitally and opened up another office in Zambia. This year we also launched our dedicated Teacher App, helping them maintain their lectures, schedules etc more effeciently. As of March 31 we have 150 schools with 3.5 lakhs children, 50,000 teachers using our Cyber School Manager App and we have just started.

What make us Different ?

Consulting led approach

Understanding technology is great;
understanding business is awesome

Customer centric engagement model

We are not just your technology partnet; We
are extended organization.

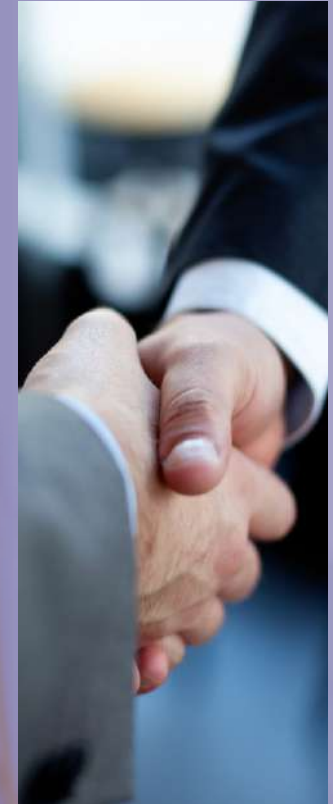

Transparent governance model

For us, relationships are beyond contractual
obligations.

ShipIT (Carrier Management System)

This project is all about posting Trailers/Carriers and its keeping status of all posted Trailers(Carriers) entered into the system and all relevant users can see the status of their corresponding Trailers.

Once a Trailer(Carrier) has entered into the system then it will go through to the following stages :
Pending ,Assigned ,Shipped ,Delivered.

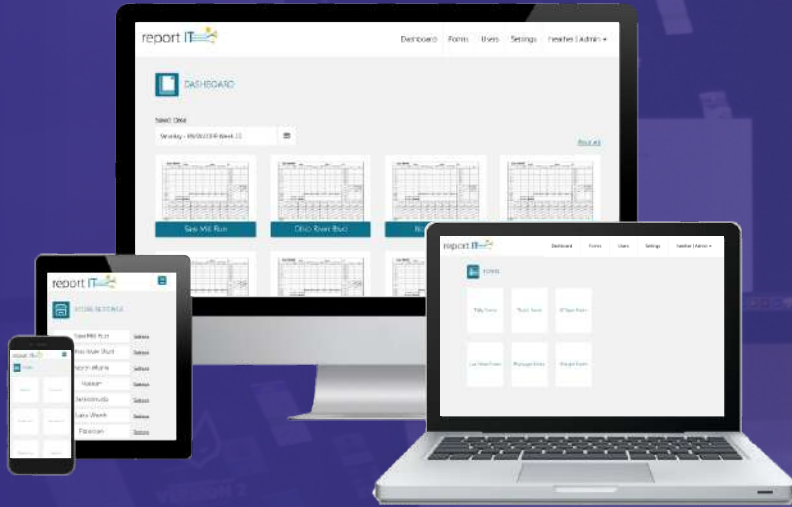

Following facilities provided for users:
Admin Dashboard , Message communication between all users associated with a trailer for keeping track of status of trailer , Email box with similar layout to Gmail.

Automatic email to admin for charges details of delivered shipments.

This project has four type of users:-

- ➡ Admin
- ➡ Shipping Store
- ➡ Broker
- ➡ Receiving Store

Report Management System

Basic goal of this project is as follows :-

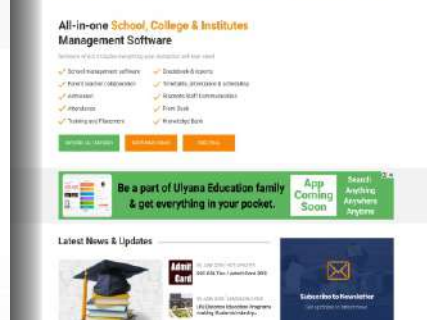

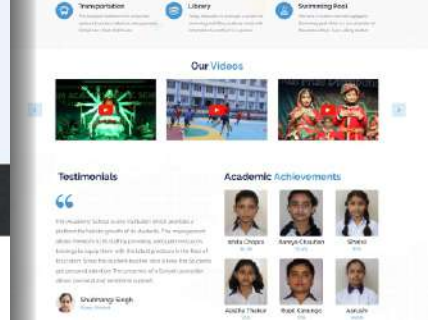

- Employees at different store locations can enter data in different forms using web login.
- Employees at different store locations can change/edit their data for a specific time frame and Time frame is depend the on type of user.
- Each store has three type of users : Manager, Tallyer, Dispatcher
- System will generate financial reports based on different data entered on different forms using a set of complex formulas.
- System communication with DOMO (Third Party Provider) via Web Services.

This project has four type of users:-

- | | |
|--------------|-----------|
| ➡ Admin | ➡ Manager |
| ➡ Dispatcher | ➡ Tallyer |

Digital Marketing

Social Media Optimization

SMO helps strengthen your brand and boost visibility & also helps in generating leads and increasing sales.

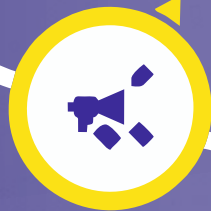

Social Media Marketing

In today's world, social media is considered to be the quickest tool for businesses to reach across their potential customers.

Google Adwords

It is a fast, flexible and cost-effective way to deliver promotional messages to both existing and new customers via email.

Email Marketing

It is the implementation of the email to boost the products and services & create connections via the database of the current & future customers to meet the marketing objectives.

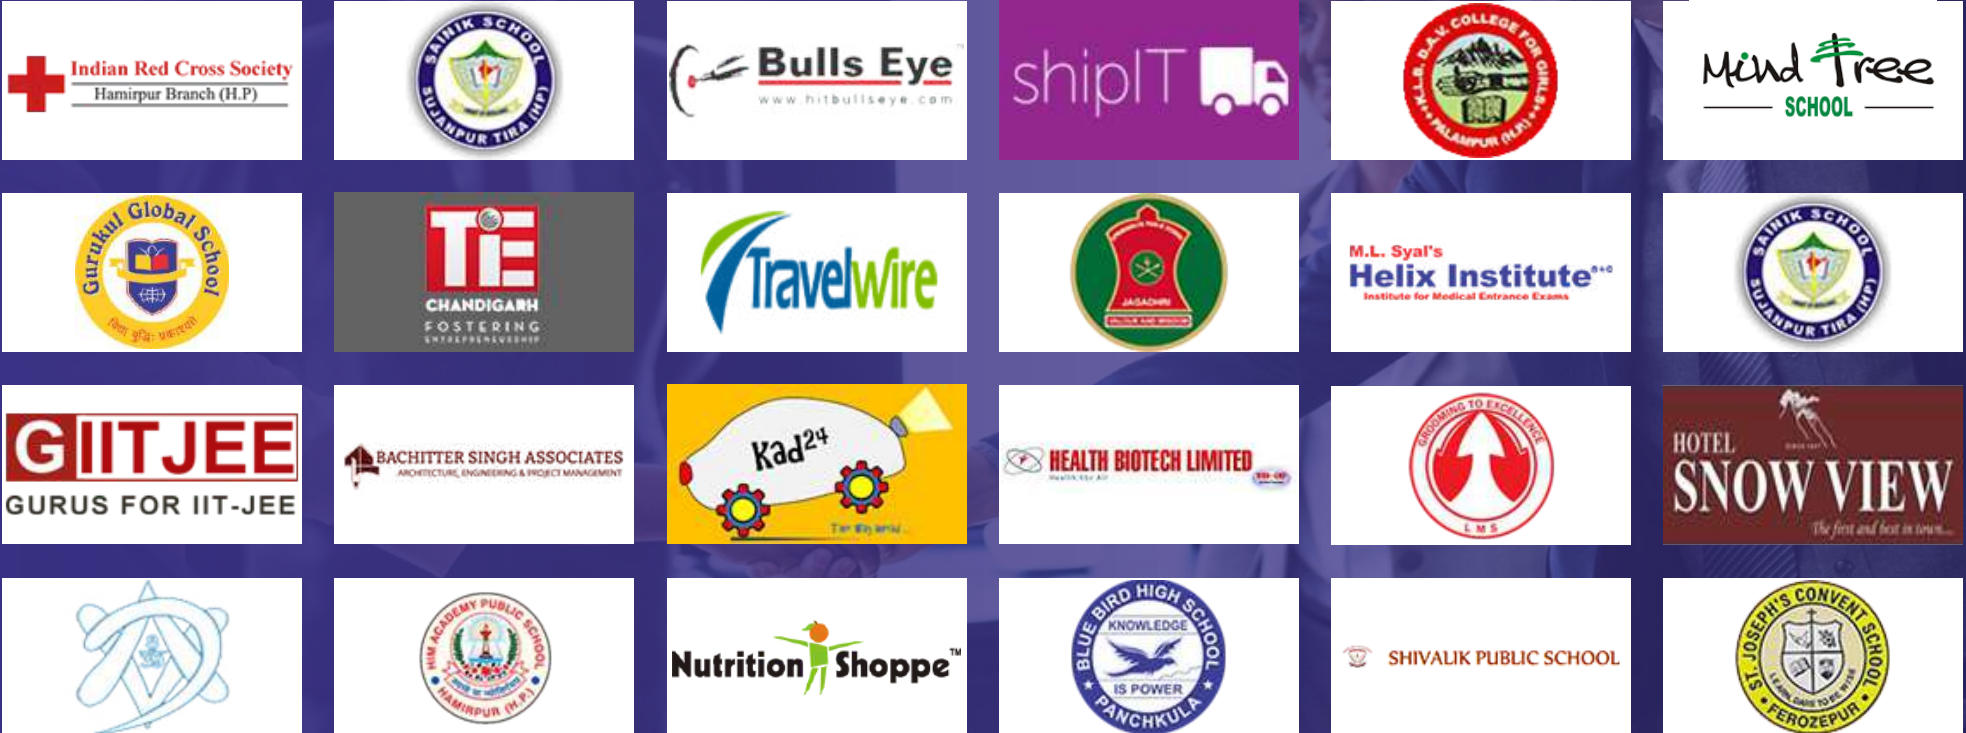

SEO

SEO is a chain of techniques that enhances the appearance of your website in search engine results.

500+ Happy Clients

Client Testimonials

“

I'm glad to write this testimonial for Cybrain Software Solutions & its dedicated team. I can describe them & the work done by them is just two words, "Simply Awesome"! Be it the turnaround, quality or the concept understanding, I got the best from them. In fact, before writing all this, I've already recommended them to many of my friends. Keep up the good work!"

Mishi Bhandari

Mishi Baby Studio

“

I had a fantastic time working with Cybrain Software Solution. They have a team of professionals who can develop the most attractive website for you. They concentrate on the minute details of digital marketing and work hard to take your business to the next level. I have received, what I desired. They are very cooperative and cater to all your needs.

Mr. Zeko Mbumwae

Software Company, Zambia

“

The best part of Cybrain Software Solution is its dedicated team of experts. They pay the utmost attention to your requirements and deliver you a perfect solution. I am satisfied with the quality of the project they deliver. The best part is that they ensure timely delivery of projects. I have recommended CSS to my friends as well who are looking for such top-notch services.

Mr. Supreet Khanna

Get found digitally, CEO

“

I had a fantastic experience working with Cybrain Software Solutions. They are great experts in creating the most appealing websites for you. The SEO team is all affluent with the latest marketing techniques. They deliver what they promise and there is no looking back. I got the perfect delivery of my projects.
